2008 SUMMER SOLUTIONS

World's first Head Unit designed for iPod.

X001
Digital Media Receiver

iDA-X001 Digital Media Receiver
ENJOY THE BEST iPod EXPERIENCE IN YOUR CAR

The revolutionary iDA-X001 is the first head unit designed in collaboration with Apple. With its Full Speed USB connection you have ultra-fast data access speed and comprehensive control. Plus, seamless iPod-like menus and a jog dial makes your iPod ready for the road. Featuring a bright, detailed display, you can easily navigate through all your digital content, making your iPod an integral part of the system. Experience extraordinary Full Sound. With a pure digital link, 24-Bit digital-to-analogue conversion and MediaXpander™ ensures superior sound quality. Your music. Your iPod. Full Speed, Full Sound.

• 50W X 4 HIGH POWER AMP • USB CONNECTION FOR iPod VIDEO (5G) AND NANO (2G) • 2.2" TFT DISPLAY • 3 PREOUTS • 24-BIT DAC • BLUETOOTH READY

MP3 AAC 24bit D/A CONVERTER QUICK SEARCH MX Ready

$699.00

24bit D/A CONVERTER

Superior Sound Quality

With a pure digital connection, Burr Brown 24-Bit DAC decoding and dynamic MediaXpander processing, your compact music collection will sound anything but compact. Amazing sound quality, enormous power. Your iPod never sounded so good.

Works just like an iPod

The iDA-X001 is the first head unit with a user interface designed and developed with input from Apple. This partnership enabled Alpine to create a Human Machine Interface (HMI) around the iPod, allowing iPod users to naturally and easily navigate through iPod content in the car.

Amazing TFT Colour Display

The high-resolution display is beautiful and bright, delivering ultra-clear text and vivid, full colour images. Menus, CD artwork, song information—everything looks brilliant on this display. Plus, with three different viewing modes you can adjust the display to your preference, or day and night lighting conditions.

Bluetooth Ready

Connect the KCE-300BT Bluetooth module, and the iDA-X001 provides full operation of a Bluetooth-enabled mobile phone. Now you can keep your hands on the wheel while receiving calls with a clear view of caller ID, phone book and other information on the display.

KCE-300BT BLUETOOTH INTERFACE $349.00

Clock and Calendar Display

The retro clock and calendar display conveys the unique style and ultra-cool character of the iDA-X001. It can be displayed at anytime, and when powered off it continues to be displayed until the car ignition is disabled. So even when you're not listening to music, the clock is visible.

CD Changer System

Still need to play your CDs or MP3s on a CD-R, then the CHA-S634 is the perfect partner, providing 6-disc convenience and full iDA-X001 compatibility.

iDA-X001 + 6-DISC CD/MP3 CHANGER $799.00

USB for iPod and other devices

The new Full Speed USB connection instantly makes your iPod video or Nano ready for the road, providing high-speed data transfer for fast music library access and high sound quality. Plus, it even lets you play music content on your USB thumb drives and portable USB hard disk drives*.

*Portable hard drives may require an additional power source.

iPod Nano Video System

Convenience at its best. Take to the road with the latest limited edition Alpine iPod Nano Video 8GB or 4GB.

iDA-X001 + ALPINE EDITION 8GB Nano VIDEO $799.00

iDA-X001 + ALPINE EDITION 4GB Nano VIDEO $749.00

Visual Customisation

Change the illumination from blue to red. Plus, select an alternate background or use Alpine's iPersonalize website to download a custom wallpaper. www.i-personalize.com.au

iPod Classic System

Move into the world of content mobility and have your entire music collection wherever you go with the limited edition Alpine 80GB iPod Classic.

iDA-X001 + ALPINE EDITION 80GB iPod CLASSIC $999.00

Your iPod. Your phone.

In your car.

eX-10

eX-10 Advanced iPod Controller with Bluetooth

Alpine's revolutionary eX-10 integrates your iPod and Bluetooth™ mobile phone with any car audio system.The advanced dash-mount panel provides an iPod-like user interface to display your iPod's music search menus and album artwork. While your iPod is charging, your music is played through the car's sound system via the premium FM transmitter or auxiliary port. Even more impressive, you have hands-free operation of your compatible Bluetooth™ mobile phone with access to your phone book, caller ID and streaming music.

• 2.4" HIGH-RESOLUTION TFT DISPLAY • FULL SPEED CONNECTION FOR ALL iPod MODELS WITH DOCK CONNECTOR • BUILT-IN HIGH QUALITY FM TRANSMITTER • QUICK SEARCH • 3 VIEWING MODES FOR iPod PLAYBACK • ALBUM ARTWORK DISPLAY • BUILT-IN BLUETOOTH HANDS-FREE PHONE OPERATION • COMPATIBLE WITH MANY BLUETOOTH ENABLED MOBILE PHONES • CALLER NUMBER DISPLAY • AUDIO STREAMING READY • AUX OUTPUT (MINIJACK) • INCLUDED WIRELESS REMOTE CONTROL, POWER ADAPTERS FOR CIGARETTE LIGHTER SOCKET AND MICROPHONE

$299.00

$399.00 iDA-X300 + 6-DISC CD/MP3 CHANGER

The most accurate sound reproduction ever.

IMPRINT

CDA-9887 CD/MP3 WMA/AAC Receiver

EXPERIENCE MUSIC THE WAY THE ARTIST INTENDED.

IMPRINT Head Unit $599.00

MultEQ Calibration $299.00

Hear music exactly as it was meant to be heard—with accuracy and response never before available in the car. This audiophile-grade head unit is equipped with sophisticated MultEQ technology that measures your car's acoustics and precisely processes the sound accordingly, to let you hear music with all its power and clarity—just as the artist intended.

- 50W X 4 HIGH POWER AMP
- AUDYSSEY MULTEQ SOUND OPTIMISATION
- 24-BIT DAC • 6CH DIGITAL TIME CORRECTION
- 3 PREOUTS • BLUETOOTH READY
- iPod FULL SPEED READY

MP3 AAC 24bit BioLite QUICK SEARCH 4V PreOut MX Included

Experience music the way the artist intended.

Every artist has a vision, and works hard to perfect it.
But do we really get to hear it that way?
With IMPRINT Sound, the answer is finally: Yes!

Advanced technology for ultimate sound quality

Experience music inside the car like never before. Alpine has combined its in-vehicle sound system experience with Audyssey's acoustical technology into one unprecedented component—including 24-Bit DAC, digital time correction and selectable crossover frequencies.

The sonic magic of MultEQ

The car interior is an acoustical challenge. Interior surfaces reflect sound while other surfaces absorb it. IMPRINT Sound overcomes the car's inherent acoustical challenges, and also improves the sound stage, tonal balance and definition. MultEQ solves all this by using more than 500 correction points along the frequency spectrum.
This optimises the sound reproduction to the specific vehicle listening environment with much greater precision than has been achieved up to now—reproducing the music as it was meant to be heard throughout the car.

AUDYSSEY MULTEQ XT

Precise calibration to achieve IMPRINT Sound.

MultEQ Calibration (KTX-100EQ)

For MultEQ sound the optional KTX-100EQ calibration kit is required. The kit includes PC software, cables and a high-precision microphone. The software analyses the acoustic environment and corrects the problems, downloading the results into the head unit. When music plays, the car's acoustic problems are cancelled, for near perfect linear response.

Manual System Tuning

The CDA-9887 fully caters for users that prefer to manually tune their system. The 6-Channel Digital Time Correction enables precise compensation for speaker placement and the 3-Way/2Way crossovers provides full bandwidth control from the head unit.

MultEQ is unavailable in manual tuning modes.

Wide dynamics, full power, remarkable clarity — for true IMPRINT Sound.

Small in size, huge in power and performance

The ultra-compact PDX series amps fit virtually anywhere in your vehicle. They're stackable. Each of the PDX amps delivers enormous power, wide dynamic range, plus exceptionally high fidelity and performance to deliver true IMPRINT Sound.

State-of-the-art Type-X speakers and subwoofers

To experience the full potential of IMPRINT Sound, you'll need an uncommonly high-quality speaker system—and Alpine's Type-X series are ready to deliver. Unrivalled quality and maximum performance.

Ultimate Sound for your iPod and CD's

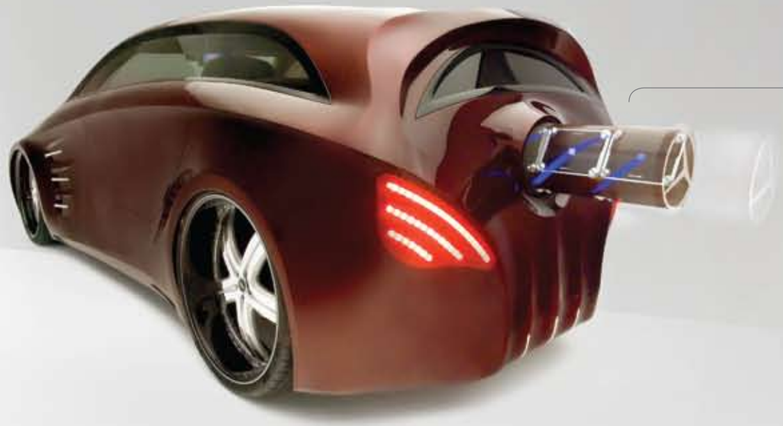
Mercedes R500 Imprint RLS

ULTIMATE LISTENING MACHINE

A TOTAL TRANSFORMATION

Alpine's USA Advanced Application R & D Team totally transformed a Mercedes Benz R500, giving it two doors rather than the original four, and making it a centre-drive car that can be driven from either the left or right front seat. Each door is actually integrated into a seat, and each door/seat module is on a motorised rotating platform that automatically rotates the seat outward and the door inward to allow the driver access to the custom-made interior.

The striking design of the RLS was created entirely by hand. Using only the original roof of the R500, the front, rear and sides were shaped from fibreglass to give the car a sophisticated, flowing shape. The RLS is finished in an elegant custom-mixed candy cherry cola brown hue that accentuates its magnificent shape.



IMPRINT SOUND

Once two lucky passengers are inside, they get the ultimate sound quality experience thanks to IMPRINT Sound using the CDA-9887 CD/MP3 WMA/AAC receiver. At hand is a multitude of sound sources from AM/FM/CD and iPod. Pure sound is delivered by an array of PDX amps, Type-X Subwoofers and new Type-X reference speakers. The PDX amp display travels 27" out the back of the RLS while simultaneously rotating 360 degrees.

Fully Digital. Ultra-Compact. Powerful.

PDX

PDX Amplifiers

INGENIOUS CHASSIS DESIGN ENABLES EASY INSTALLATION.

Extraordinary in concept, revolutionary in design—PDX amplifiers power your system like never before. Drawing on Alpine's Microdynamics™ technology, PDX with their all new digital design set the benchmark with new heights of power density and precise sonic purity in a stylish ultra-compact design.

Behind their elegant chassis PDX amplifiers answer the challenge of conventional digital switching amplifiers with a completely innovative full-range digital architecture that rivals efficiency and accuracy of even the best Class A/B amplifiers. Available in mono and bridgeable multi-channel formats, these amplifiers can be configured to build any high-end audiophile system or pro-level competition system.

TYPE-X REFERENCE
COMPONENT SPEAKERS

The Type-X REF series are more than just new—they're the new reference standard in loudspeakers. Class leading all-the-way, these high-calibre speakers use a sophisticated cross-ribbed aluminium cone, 1" ring dome tweeter and a high-grade crossover network for stunning sound performance. Plus, their tweeter mounting bridge option makes for simple installation in most speaker locations.

TYPE-X
COMPETITION SUBWOOFERS

Type-X subwoofers deliver an unrivalled synergy of power and accuracy. Employing innovative techniques, the re-engineered Type-X subwoofers deliver efficiency and performance to astounding new levels. With virtually no heat build-up, you enjoy precisely accurate, tight bass with awesome power and sound quality. If you're contemplating a pure reference subwoofer, or building a competition SPL system, look no further—Type-X are the ultimate acquisition.

Awesome power, authentic sound.

V-POWER™ Class-D Bass EQ

Premium Series Amplifiers

HIGH PERFORMANCE AND ULTIMATE FLEXIBILITY.

Alpine's premium V-Power amplifiers are packed with power, quality and versatility making them a solid foundation behind any high performance sound system. Drawing on trickle down and Class-D technology, they are equipped with superior quality components for top-level performance, with no-shutdown operation and remarkable sound quality.

The powerful V-Power premium series offer the flexibility to create virtually any configuration imaginable. Their MultiMode capability enables a wide-range of applications, plus with the Bass EQ and built-in crossovers you have ultra-fine system tuning and adjustment. Whether you want a comprehensive competition system, or a modest high performance system, V-Power is the powerful choice.

Brilliant sound performance, seriously heavy bass — play it loud.

TYPE-R
COMPONENT SPEAKERS

Designed to fit your car and your music, the new Type-R speaker series deliver great looks, excellent sound quality and are ready to play loud and deep. Hear and experience subtle nuances of the music and powerful bass, the multi-layer hybrid woofer cone with integrated wave guide ensures precise, full-life sound and extreme durability. Brilliant high frequencies are revealed by the ultra-smooth 1" ring tweeter and high-grade external crossover. A custom designed, lower profile aluminium cast frame and linear drive motor structure allows for installation into a wide range of vehicles without compromising response and dynamics.
